About This Game

Besiege castles and raid villages in Chivalry: Medieval Warfare is a first-person slasher with a focus on multi-player. Featuring competitive online combat that seeks to capture the experience of truly being on a medieval battlefield. Inspired from the intensity and epicness of swordfighting movies such as 300, Gladiator and Braveheart, Chivalry: Medieval Warfare aims to bring that experience to the hands of a gamer.

The game is skill-based and controls like an FPS, but instead of guns and grenades, players are given swords, shields, maces, battleaxes and longbows. Set in a fictional, yet gritty and realistic world, players will fight in fast paced online battles besieging castles, raiding medieval villages and fighting for glory in the arena with up to 32 players.

Key Features:

- Deep melee combat system provides players with a huge range of responsive combat options
